

## **SEMISTART**

# Antiparallel thyristors for softstart

### **SKKQ 3000**

**Preliminary Data** 

#### **Features**

- · Compact design
- · Thyristor with amplifying gate
- Pressure contact technology

## **Typical Applications**

Soft Starters

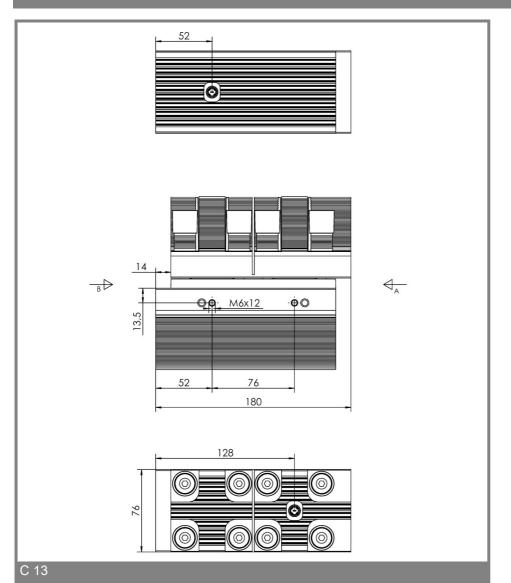

#### Remarks

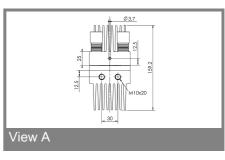

- Please note: This module has no soft mold protection around the chip. It is therefore susceptible to environmental influences (dust, humidity, etc.). The humidity test according to IEC60068-2-67 is not passed by this product.
- T<sub>vjmax</sub> up to 150°C is allowable for overload conditions, max. time period for the overload condition is 20s.

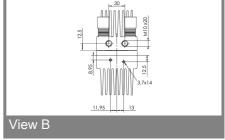

| Absolute Maximum Ratings |  |                        |       |  |  |  |  |
|--------------------------|--|------------------------|-------|--|--|--|--|
| Symbol                   | Conditions   | Values                 | Units |  |  |  |  |
| I <sub>overload</sub>    | W1C; sin. 180°; 20 sec.; T <sub>vimax.</sub> = 150 °C; T <sub>vistart</sub> = 40°C | 3080                   | Α     |  |  |  |  |
