

The new Quad LC Adapter from Molex provides multiple connection options from a single adapter

Designed for high-density applications, the quad LC adapter from Molex provides a 4-position LC adapter solution. Four LC ports are provided in 1 adapter, allowing for multiple LC connectors to be mated within the adapter. Connection options include 4 simplex LC connectors, 2 simplex and 1 duplex LC connectors or 2 duplex LC connectors.

The quad LC adapter is available in either a snap-mount or screw-mount installation style. Individual shutters on one side of the adapter are available as an eye-safety option, providing protection even when the adapter is not fully populated. The adapter is available with either Phosphor Bronze or Zirconia Ceramic alignment sleeves to accommodate either singlemode, multimode or Angle Polish (APC) connectors. Mounting dimensions of the quad LC adapter are identical to the duplex SC adapter and can be used as direct a drop-in replacement.

The quad LC adapter from Molex is the newest addition to this robust small form-factor product family. Products include simplex and duplex connectors, adapters and cable assemblies. For more detailed information, please visit: www.molex.com/fiber/lc.html.

Features and Benefits

- Four LC ports provide multiple simplex or duplex connection options
- Ceramic or Phosphor Bronze alignment sleeves accommodate singlemode and multimode operation
- Safety shutters available to prevent eye injury when a connector is not installed
- Snap or screw-style mounting allows for installation flexibility
- SC duplex compatible mounting provides a direct drop-in replacement solution for density upgrade

SPECIFICATIONS

Reference Information

Packaging: Individual bag
 Mates With: Simplex or duplex LC connectors
 (Series 86024, 86025)
 Designed In: Millimeters

Mechanical

Durability: 200 cycles min.

Physical

Housing: Polymer
 Alignment sleeve: Zirconia Ceramic or
 Phosphor Bronze
 Operating Temperature: -40 to +85°C

- Telecommunications
 - Hubs
 - Servers
 - Routers
- Other Markets
 - Optical DVI
 - Storage servers
 - Local Area Networks (LANs)
 - Premise distribution
