

LED TUBE

1500mm / T9 / G13 LED TUBE

DESCRIPTION

- Solution for energy saving, CO₂ reduction and environment protection
- BV LED tube is made of high brightness LED with driver build in
- Long lifetime (about to 50000Hrs)
- Recyclable
- Easy installation, direct replacement

FEATURES

- End cap meets standard G13 specification
- Meets T9 (9/8 inches diameter) tube size
- Full range voltage (AC 90- 264V)
- Low power consumption and high optical intensity
- High power efficiency (>0.8)
- Lead (Pb) free, and RoHS compliant

APPLICATIONS

- General Lighting
- Tube Light Source
- Architectural Lighting
- Backlighting

LED TUBE**1500mm / T9 / G13 LED TUBE****■ Packaging**

Each carton has 20 tubes.

**■ CAUTIONS****1. Voltage**

- A. Driver the product over the specified voltage rating (264VAC) will damage the product.
- B. Lower than 90VAC the product will not work normally.
- C. Use DC source the product may not work normally.

2. Installation

- A. For your safety please turn off the power before install the product.
- B. Remove the starter from the luminaires. Starter may cause the tube work abnormally.
- C. Remover the capacitor from the ballast.
- D. This tube is not designed for rapid and instant type ballast. Do not apply the lamp in these luminaires.

3. Storage & Handling

- A. The product should be storage in an environment with the relative humidity less than 90% RH (@30 degree C or less).
- B. Warranty will be VOID if disassemble the lamp.
- C. The prduct is not waterproof. Excess moisture may also damage the product.
