#### Introduction

PPC-L106T fanless Panel PC supports the low power AMD Geode LX 800 (500 MHz) processor. It is a powerful and compact Panel PC, ideally suited for operator interface (HMI) applications. Its 10.4" 800 x 600 display, 1 GB SDRAM capacity and auto-sensing 10/100 Mbps Ethernet controller make it the ideal choice for many applications. It is great, for example, for thin clients, health care and other networked environments, and of course traditional process control in industrial automation.
