

717-3283

EX 4000

- 3.5Kw rated output/
4.0Kw max output
- 115/230v ac output
- Overhead valve
4 stroke petrol engine
- Automatic voltage
regulator
- Large fuel tank
- Auto-throttle
- 59dB(A) sound
pressure level @ 7m
- Oil alert & fuel gauge
- Ultra quiet running
- Electric start
- Auto-choke
- Battery supplied
- Circuit breakers
- Voltmeter
- Pilot lamp
- Remote control
(10m lead)
- Hook attachment

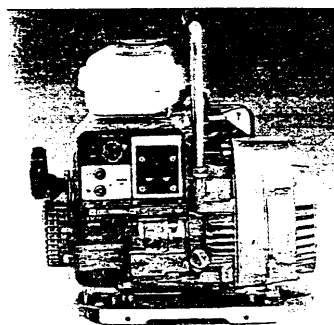

EX 5500

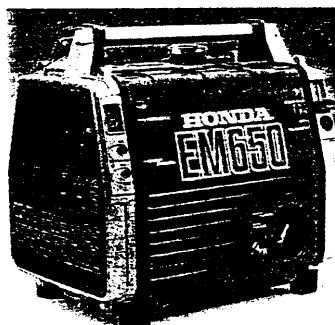

- 5.0Kw rated output/
5.5Kw max output
- 115/230v ac output
- Liquid-cooled overhead
cam petrol engine
- Automatic voltage
regulator
- Large fuel tank
- Auto-throttle
- 64dB(A) sound
pressure level @ 7m
- Hook attachment
- Oil alert
- Ultra quiet running
- Electric start
- Auto-choke
- Battery supplied
- Circuit breakers
- Voltmeter
- Fuel gauge
- Pilot lamp
- Remote control
(10m lead)

POWER OUTPUT

EXACTLY HOW MANY ELECTRIC
APPLIANCES CAN YOU POWER WITH
A HONDA HANDY GENERATOR.

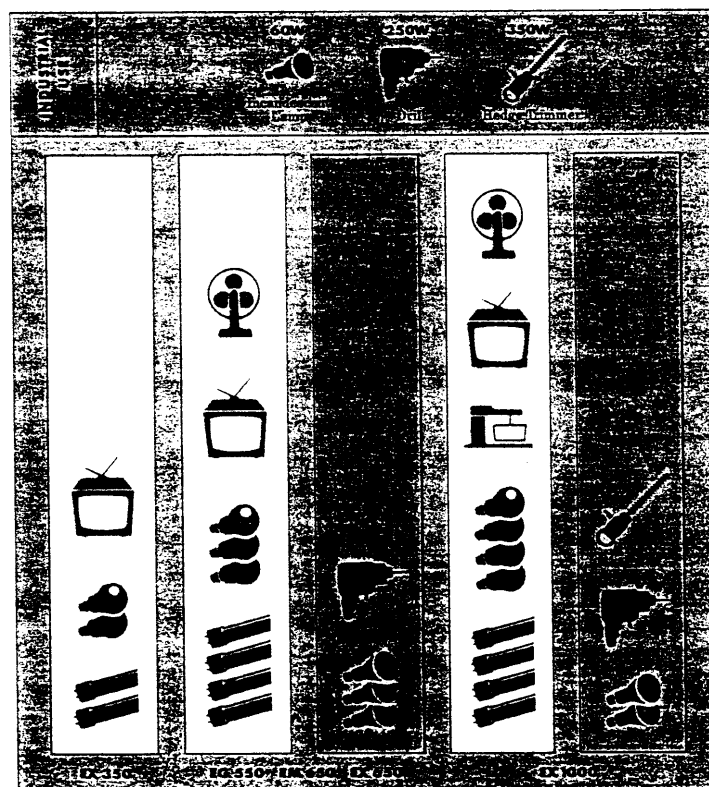

This simple-to-follow chart gives you a good idea of just how many items of domestic or industrial equipment each model will power.

It's best to check carefully both the specific consumption and start-up load of each appliance.

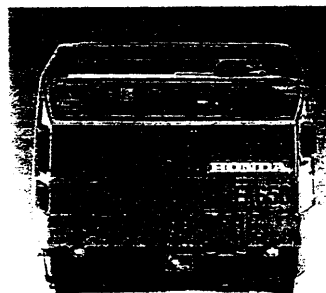

In this way, you can match the generator output to your particular needs and choose the right model accordingly. If you're in any doubt talk to your local authorised dealer where you can also pick up a copy of Honda's 'Advice to Users' leaflet.

MODEL USAGE CHART

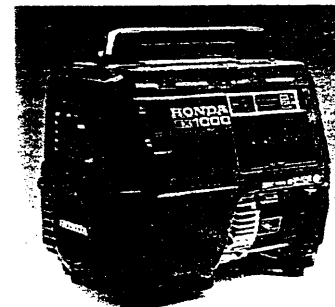

DOMESTIC USE	30W	50W	60W	100W	220W
	Fluorescent Lamp	Electric Fan	Incandescent Lamp	Television	Food Mixer

This chart is a yardstick only. Always check the specific consumption of each appliance you are using.
