Compact Hand Pump

This hydraulic power pack allows the whole of the pull through range of punches and dies to be utilised. The unit is available in four formats: a kit of hole cutters and adaptors for sizes 12.5 to 35mm, a similar kit for sizes 3/4" to 1 1/4", a kit for producing 25 way 'D' connector apertures and a basic kit of gun and adaptors. The gun operates on the hydraulic principle, pressure being generated from the hand operated grip.

Hydraulic Power Pack
The cutting principle is essentially the same as the hole cutters, but this power pack complete with pump, cylinder and 1.8 metres of high pressure hose, exerts a force capable of cutting larger holes in thicker materials.

Will cut up to 3mm mild steel and up to 4mm aluminium and similar materials.

This sturdy, bench mounted, hand operated guillotine is capable of shearing 1.6mm mild steel or 3.2mm half-hard aluminium, up to a width of 508mm (20"). It can also cut sheet plastics, laminates and PCB materials. The guillotine is fully guarded, with a spring loaded work clamp holding the material in position and a built in rule to assist precision cutting. The cutting blade is reversible.
