Hot air tools made for professionals

## top design and ergonomical

two-step switch

non-slip handle

terminal display with memory function

function programmes

SET 650 °C

temperature and air-flow adjustment

SELECT

STANDBY

ergonomical distribution of weights

stand-by for eco-drive

tool stand

WELDY PRO • WELDY PLUS • WELDY PLAST • WELDY POWER

terminal display with memory function for reproducable results from the work

Accessories
❶ Welding nozzle
❷ Reflector nozzle
❸ Glass protection nozzle
❹ Wide-slot nozzle

❺ Reduction nozzle Ø 20 mm
❻ Overlap welding nozzle
❼ Pressure roller

Power consumption 2000 W
*Temperature range 80 °C to 650 °C*
*Weight 620 g*

Multi-functional hot air tool

- Intelligent terminal display
- Stand-by for eco drive
- Memory function
- The last select functions (function program) are immediately available again after switching the tool off and then on again.
- **7 Function programmes**

80 °C °F	450 °C	500 °C	350 °C	550 °C	425 °C	550 °C
Manual operation	Shrinking	Forming	Welding	Soldering	Paint stripping	Drying

By operating the select key, the required user program with set values for temperature and airflow can be adjusted. As required, the operator can program these values himself within the set range for the program.
Shrinking

Soldering of copper pipes

Paint stripping

2

Accessories

❶ Welding nozzle
❷ Reflector nozzle
❸ Wide-slot nozzle
❹ Overlap welding nozzle
❺ Pressure roller

Power consumption 2000 W
*Temperature range 80 °C to 650 °C*
Weight 620 g

Multi-functional welding tool

- Intelligent terminal display
- Stand-by for eco drive
- Memory function
- **11 Function programmes for welding applications**
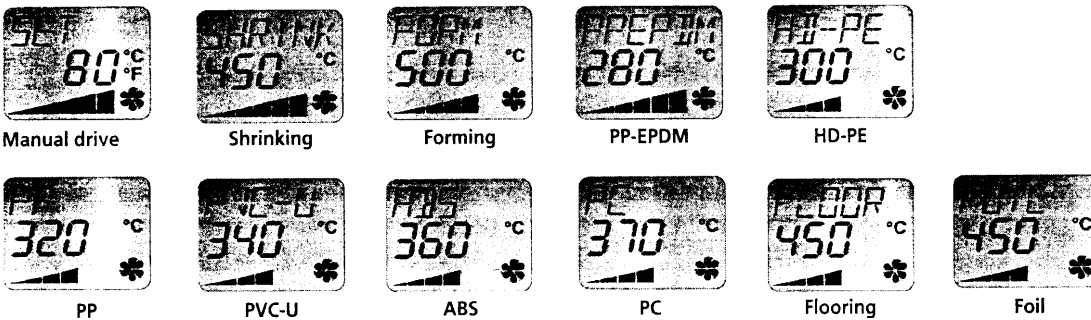

Manual drive	Shrinking	Forming	PP-EPDM	HD-PE

PP	PVC-U	ABS	PC	Flooring	Foil

By operating the select key, the required user program with set values for temperature and airflow can be adjusted. As required, the operator can program these values himself within the set range for the program.

Welding foils   *Repairing bumpers*   *Welding bitumen and roofing felt*
Accessories

❶ Welding nozzle
❷ Reflector nozzle
❸ Glass protection nozzle
❹ Wide-slot nozzle

❺ Reduction nozzle Ø 20 mm
❻ Overlap welding nozzle
❼ Pressure roller

Power consumption 2300 W
*Temperature range 80°C to 650°C*
Weight 620 g

Multi-functional hot air tool

• Intelligent terminal display
• Stand-by for eco drive
• Memory function
• **11 Function programmes**

80°F	450 °C	500 °C	350 °C	650 °C
Manual drive	**Shrinking**	**Forming**	**Welding**	**Soldering**

|					
980 °C	400 °C	425 °C	450 °C	600 °C	650 °C
Edge-banding	**Curing**	**Laboratory applications**	**Gluing**	**Loosening**	**Drying**
By operating the select key, the required user program with set values for temperature and airflow can be adjusted. As required, the operator can program these values himself within the set range for the program.

*Forming*   *Edge-banding*   *Laboratory applications*

WELDY Hot Air Tools

multi-functional hot air tools made for professionals

		WELDY PRO	WELDY PLUS	WELDY PLAST	WELDY POWER
Power consumption	W	1800	2000	2000	2300
Temperatur range	°C	100-550	80-650	80-650	80-650
Air flow	l/min.	250/550	200-550	200-550	200-600
Static pressure max.	Pa	1300	1200	1200	1200
Weight	g	570	620	620	620
