

105-281 TO 105-284

'snap' together to provide permanent circuit configurations. These 15 amp modules form terminal strips with the following features -

- 3 terminal options
- rugged barriers
- flame retardent mouldings
- interchangeable with TRW Connectors standard series and can be used with standard accessories

Why you should try the TRW Connectors Modular Terminal Strips

Mix and match. A new concept to help solve your packaging problems. Now you can mix terminations with 'snap' together modules to provide permanent configurations.

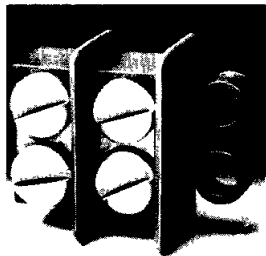

Reduce your Inventory

Make up what you want when you want to avoid 'dead' stock

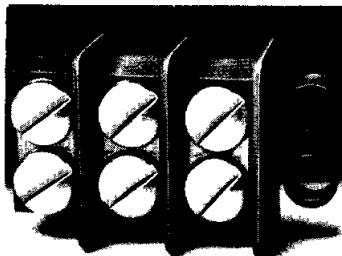

Easier than a jigsaw to assemble

Loosely fit 2 or 3 modules together. Position between jaws of hand pliers and apply pressure.
