N-Channel 60 V (D-S) MOSFET

PRODUCT SUMMARY					
V _{DS} (V)	60				
$R_{DS(on)}(\Omega)$ at $V_{GS} = 10 \text{ V}$	3				
Configuration	Single				

FEATURES

- · Military Qualified
- Low On-Resistence: 1.3 Ω
- Low Threshold: 1.7 V
- Low Input Capacitance: 35 pF
- Fast Switching Speed: 8 ns
- Low Input and Output Leakage

BENEFITS

- Guaranteed Reliability
- Low Offset Voltage
- Low-Voltage Operation
- · Easily Driven Without Buffer
- High-Speed Circuits
- Low Error Voltage

APPLICATIONS

- Hi-Rel Systems
- Direct Logic-Level Interface: TTL/CMOS
- Drivers: Relays, Solenoids, Lamps, Hammers, Displays, Memories, Transistors, etc.
- · Battery Operated Systems
- Solid-State Relays

Diode Forward Voltage	V_{SD}	I _S = 0.99 A, V _{GS} = 0 V		0.7	0.8	1.6	V	
Dynamic								
Input Capacitance	C _{iss}			-	35	50		
Output Capacitance	Coss	V		/ f	-	25	40	pF
Reverse Transfer Capacitance	C _{rss}	$V_{GS} = 0 V$	$= 0 \text{ V}$ $V_{DS} = 25 \text{ V}, f = 1 \text{ MHz}$		-	7	10	
Drain-Source Capacitance	C _{ds}				_	30	-	
Switching ^c								
Turn-On Time	t _{ON}	$V_{DD} = 25 \text{ V}, R_L = 23 \Omega$ $I_D \cong 1 \text{ A}, V_{GEN} = 10 \text{ V}, R_g = 25 \Omega$		-	8	10	no	
Turn-Off Time	t _{OFF}			-	8.5	10	ns	

Notes

- a. FOR DESIGN AID ONLY, not subject to production testing.
- b. Pulse test: PW \leq 300 μ s duty cycle \leq 2 %.
- c. Switching time is essentially independent of operating temperature.

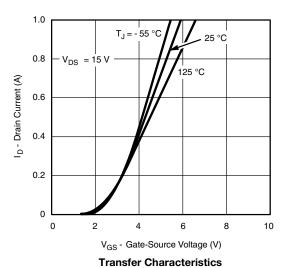

Stresses beyond those listed under "Absolute Maximum Ratings" may cause permanent damage to the device. These are stress ratings only, and functional operation of the device at these or any other conditions beyond those indicated in the operational sections of the specifications is not implied. Exposure to absolute maximum rating conditions for extended periods may affect device reliability.

Dimensions (see notes 1, 2, 9, 11, 12)

ECN: S-40373-Rev. C, 15-Mar-04

DWG: 5511

NOTES:

- Dimensions are in inches. Metric equivalents are given for general
- Beyond radius (r) maximum, TW shall be held for a minimum length of 0.011 (0.028 mm).
- Dimension TL measured from maximum HD.
- Outline in this zone is not controlled.
- Dimension CD shall not vary more than 0.010 (0.25 mm) in zone P. This zone is controlled for automatic handling.
- Leads at guage plane 0.054+0.001, -0.000 (1.37+0.03, -0.00 mm) below seating plane shall be within 0.007 (0.18 mm) radius of true position (TP) at maximum material condition (MMC) relative to tab at MMC.
- LU applies between L1 and L2, LD applies between L2 and L maximum. Diameter is uncontrolled in L1 and beyond LL minimum.
- Radius (r) applies to both inside corners of tab.
- 10. Drain is electrically connected to the case.

Disclaimer

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and/or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk and agree to fully indemnify and hold Vishay and its distributors harmless from and against any and all claims, liabilities, expenses and damages arising or resulting in connection with such use or sale, including attorneys fees, even if such claim alleges that Vishay or its distributor was negligent regarding the design or manufacture of the part. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.
