

Heat Sink SQ50x34

TECHNICAL DATA

Heat Sink for DPSS Laser Modules

SQ50x34 is a heat sink designed for DPSS laser modules of 12mm diameter. Made of black anodized aluminium it features very good thermal conductivity. The heat sink's ground plate comes with five M4 threads to firmly attach the heat sink to an optical table or tripod. A suitable laser module is fixed in place by a cylinder clamp mechanism using two allen screws.

Specifications

Item	Value	Unit
Dimension	50x50x34	mm
Thread (bottom plate)	M4	
Weight	113	g
Material	Aluminium, anodized	
Maximum Output Aperture	5	mm
Module Outer Diameter	11-12	mm

Outline Dimensions

Unit: mm
