

This 0.8mm pitch connector is developed for the car audio industry and is able to compensate for misalignment of up to 0.5mm on all three directions of X, Y and Z axes between the plug and receptacle when they are mating.

#### Features -

• 0.8mm pitch, 35-circuits and 10.5mm stacking height

The pitch and circuit number are designed to meet miniaturized multifunctional car audio and navigation equipment.

• Compensates for misalignment

To make the assembly process at customers' site easier, misalignment of 0.5mm on X, Y and Z axes will be compensated for.

• Realized current rating of 1.3 Amps

Realized 1.3A of current rating by having selected a high conductivity material for the contact.

• Applicable to automatic surface mounting technology

By providing a suction cap on the plug this embossed tape packaging connector series is applicable to automatic surface mounting.

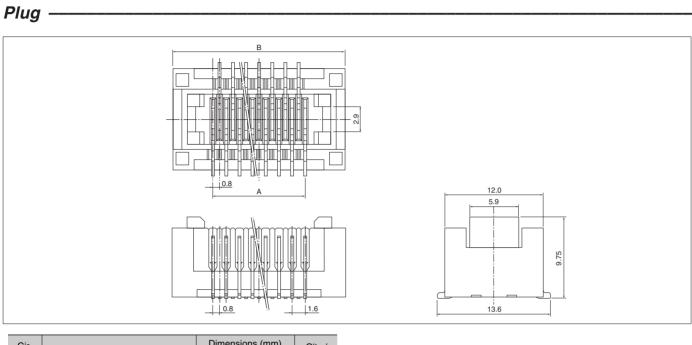

### Specifications -

- Current rating: 1.3A AC, DC
- Voltage rating: 125V AC, DC
- Temperature range: -40°C to +85°C

(including temperature rise in applying electrical current)

- Contact resistance: Initial value/50m Ω max. After environmental testing/30m Ω max. (variation from initial value)
- Insulation resistance: 500M  $\Omega$  min.
- Withstanding voltage: 500V AC/minute
- \* Compliant with RoHS.
- \* Refer to "General Instruction and Notice when using Terminals and Connectors" at the end of this catalog.
- \* Contact JST for details.
