

Ceiling mount

### MATERIALS

Nautilux is made of corrosion resistant 356 aluminum alloy with a copper (CU) content of less than 0.1%.

LED platform is easily removable and secured with a heat dissipating plate for optimal light performance.

LED light engine is installed in down lighting position to provide a general diffused light over the glass diffuser.

## ELECTRICAL

LED

- DRIVER Standard driver is 0-10V dimming-ready (dims to 10%) with: 120-277 multi-volt compatibility (50-60Hz), minimum operating temperature of -30°C/-22°F, output over voltage protection, output over current protection, output short circuit protection with auto-recovery, and over temperature protection (110°C).
- LED Standard 4000K LED platform included. Optional 3000K and 3500K available. Removable modular LED platform.

### LIFE

51,000hrs  $L_{77}B_{50}$  (based on IESNA TM-21 Test Method and LM-80 data). 68,000hrs  $L_{70}B_{50}$  (calculated projection from LM-80 data).

### FINISH

Five-stage preparation process includes preheating of cast aluminum parts for air extraction. Polyester powder coating is applied through an electrostatic process, and oven cured for long term finish.

## MOUNTING

Maximum weight: 10lbs (4.5kg) Nautilux is designed as a ceiling mount luminaire. Mounts over a standard 4" (102) octagonal electrical box with 3 1/2" (89) C/C mounting holes.

### CERTIFICATION

Tested to UL1598 and CSA 22.2 #250. ETL listed wet location. Photometry tested per IES LM-79-08 / IES LM80 test report. Rated IP65.

#### NOTES

1- If no voltage is specified, luminaires are factory prewired by default for 120V. For other voltages, please specify with catalog number, or consult factory.

2- Fuse and photocell options are normally installed with poles when specified with Luminis luminaires (except for other mounting types).
